March 2010

We are pleased to invite you to

**WORKSHOP 2010
GENERAL MECHANICS & ENERGY**

PIACENZA - REGGIO EMILIA, 30th - 31st March • 1st April 2010

During this important event dedicated to the production field that is presently steering world industries we will be introducing the following Jobs and Sachman machines:

- **Ever**, new gantry milling centre for general engineering applications, installed and running in Jobs manufacturing department,
- **MP 212 Quill**, milling-boring machine with moving column and boring quill for machining large mechanical structures.

Two new products will also be presented for the first time:

- **JomaX 265 MB**, large-size gantry machine with moving bridge, with W axis 1500 mm (in construction phase)
- **Thor**, the first model of the new medium-size family of machines with moving column.

Other highlights:

- **Jomach 169**, high-speed milling centre with moving column for machining aeronautical parts,
- **Tarkus**, milling centre for machining of titanium and tough materials.

In addition you will be able to see other milling machines in an assembly stage, such as **LinX** featuring linear motor technology with very high speed and **JomaX** for high-power milling.

During the **WORKSHOP** we will be organizing a transfer service from Jobs premises to Reggio Emilia to visit Sachman works, where you will be able to see various machine models at their different stages of assembly and also assist machining demonstrations.

Jobs Sachman staff will be at your complete disposal to examine your specifications and offer you the most modern and profitable machining technologies to satisfy your machining requirements.

We look forward to seeing you at the **GENERAL MECHANICS & ENERGY WORKSHOP 2010!** Please confirm your visit by either phone or fax (Ph.: +39 0523 549611, Fax: +39 0523 549750), or to the e-mail address: com.com@jobs.it.

Best regards,

Jobs SpA
Antonio Dordoni
Sales Director

Think Jobs Sachman

Those who “Think Jobs Sachman”,
want the widest range of milling centres.

Those who “Think Jobs Sachman”,
want to be highly competitive in hourly costs.

Very high speed
LINX
